INFORMATION TECHNOLOGY
Vendor Management Office

ITVMO Overview

The ITVMO develops a governmentwide IT acquisition intelligence capability, focusing on IT vendor relationship management to standardize technical requirements, mitigate cyber-risk, improve data quality, and leverage the government's buying power to provide agencies with meaningful acquisition intelligence to inform and support faster, smarter IT buying decisions.

Our Solutions

Original Equipment Manufacturer (OEM) Assessments

The ITVMO implemented the Vendor Assessment Program which engages Agency IT Buyers, vehicle solution holders, and OEMs to gain an understanding of procurement complexities and ways to support seamless federal acquisitions.

PRODUCTS: BUYERS GUIDES; TRAINING WEBINARS; AGENCY BUYER COHORTS

⚙ SUPPORTS E.O. 14017: SUPPLY CHAIN

Technology Life Cycle (TLC) Framework

Technology lifecycle management is the compilation of disciplines managing all aspects of technology, from concept to disposal. This document is intended to be a general reference of common stages of the Technology Lifecycle and how the ITVMO interacts within the various stages.

PRODUCTS: TECHNOLOGY LIFE CYCLE REPORT; USER STORIES

⚙ SUPPORTS E.O. 13985: RACIAL EQUITY (SMALL BUSINESS)

Contract Data Elements

Stakeholders need the ability to analyze spending based on reliable data, in order to support data driven decisions and manage the complexities of IT spending. This guide was developed to enable consistency and enhance data for agencies as they draft contracts for IT spending.

PRODUCTS: CONTRACT DATA ELEMENTS GUIDANCE

Leading Edge Technologies Report

The ITVMO developed the Leading Edge Technologies Report to explore the emerging technologies and innovative solutions that are disrupting IT acquisitions at federal agencies. The report identities emerging technology and procurement trends that will impact agencies' IT buying in 2022 and beyond.

PRODUCTS: FY2022 LEADING EDGE TECHNOLOGY REPORT

IT Buyers Community of Practice

The purpose of the ITB CoP is to create a community of federal IT buyers to share their experience and scale expertise across government. The ITB CoP brings together the acquisition programs at agencies, contract vehicle programs, and procurement specialists from across government to solve common challenges.

PRODUCTS: COMMUNITY MEETING SPECIAL TOPICS; OFFICE HOURS; WORKING GROUPS; COHORTS; TRAINING SESSIONS

Other Resources

The ITVMO has developed and collected helpful resources to make government IT acquisitions smarter and faster. Resources are continuously being developed!

PRODUCTS: RESOURCE CARDS

⚙ SUPPORTS E.O. 14005: BUY AMERICAN

⚙ SUPPORTS E.O. 14008: CLIMATE CRISIS

Coming in FY23:

Virtual Service Desk

Provide assistance in accessing key IT acquisition information made available through a centralized repository. The virtual Service Desk program will ease IT buyer access to BIC information, acquisition best practices, government SMEs, and more.

Cyber Security Solutions Catalog

Develop a solution to support agencies in getting what they need as efficiently as possible. Solutions can focus on contracts, processes, tools, templates, or knowledge sharing.

⚙ SUPPORTS E.O. 14028: CYBERSECURITY

The ITVMO is a governmentwide capability.

CORE SERVICES

ACQUISITIONS	DATA	TECHNOLOGY
facilitating two-way communications and advance acquisition approaches across the Federal IT marketplace to capitalize acquisition best practices.	Assessing governmentwide and market data for IT cost, spend, and contracting trends to Inform data-driven decisions.	Brokering access to domain expertise on IT supply/demand management, cyber, products/services, and technology trends to improve use of operational standards and minimize risks.
